Executive Appearances and Invitations

The DDCI addressed 115 senior officials attending the Executive Program in National and International Security at the John F. Kennedy School of Government. One of the Directors of the program, Mark Cancian, reported that the Deputy Director's remarks on "Intelligence and Policymaking" were very relevant to the audience. Also greatly enjoyed were the DDCI's "humor and anecdotes." The audience included two flag officers, senior grade civilians from defense and intelligence agencies, and representatives from the defense industry. Staff members of the Senate and House Armed Services Committees, House and Senate Intelligence Committees and eight CIA officers also attended. The school expressed their appreciation that the Deputy Director spoke at their dinner program.

DCI and DDCI Support

25X1

[REDACTED] prepared an assessment of the Polish situation for the DCI and key consumers at State, National Security Council, and Department of Defense. It sees the August 31 meeting between Walesa and the Polish interior minister as an effort toward an "anti-crisis pact" -- at best a first step toward a limited dialogue among regime, church, and opposition in Poland. (Assistant NIO/Europe)

Estimates and Intelligence Memoranda

Coordination was completed for Prospects for US Military Access Abroad. We plan to seek NFIB approval by telephone.

Guidance to the Intelligence Community

Walt Barrows will chair the first meeting of an Intelligence Community subcommittee formed to monitor and coordinate Intelligence Community support for efforts to model the spread of AIDS. (NIO/Africa)

Andre LeGallo briefed the monthly meeting of the Interagency Group on Terrorism (IG/T), at Ambassador Bremer's request, on Libyan terrorism and on the possibility that terrorists could use chemical and biological agents. Although Libyan terrorism is increasing, our allies are improving their relations with Libya, thus presenting the USG with a policy problem. (NIO/Counterterrorism)

Larry Budge forwarded draft "counting rules" for developing data bases on Red and Blue forces to the Intelligence Community. These rules will also be coordinated with DoD and our NATO Allies (later). The resulting data bases will support arms control negotiations and will satisfy a Congressional request of the President. (NIO/General Purpose Forces)
